

Parking at the Karlsruhe Convention Centre

Our Convention Centre offers space for 1,000 cars in the public underground car park at the Festplatz. The maximum entrance height in our underground garage is 1.90 m. For selected events, the fairground offers additional space for about 80 cars or 20 buses or trucks.

The underground car park has three green marked e-charging stations on parking deck C. Here you can charge your electric car (with type 2 plugs up to 22 kW) free of charge

Tip:

We recommend that you validate your parking ticket at one of the vending machines before the evening events. This way you can avoid waiting times at the pay stations or at our staff. The event flat rate of 6 Euro usually applies from 1 hour before admission.

We offer special rates for congress participants and exhibitors. Please contact the Parking Service Center of the underground car park with your proof of registration.

Overnight stays in a camper/caravan are unfortunately not allowed on the fairground.
