

Parking at the Karlsruhe Convention Centre

Our convention centre offers space for 1,000 cars in the public underground car park at the Festplatz.
The maximum entrance height in our underground car park is 1.90 m.
For selected events, the Festplatz offers additional space for around 80 cars or 20 buses or trucks.

The underground car park has green-marked e-parking spaces on parking deck C. Here you can charge your electric vehicle (with type 2 plug up to 22 kW) for a fee.

Please note:

We recommend that you validate your parking ticket before the evening events at one of the cash machines or with our staff. Thus, you can avoid waiting times after the event.

The event flat fee of € 6.00 is generally valid from 1 hour before admission until 1:30 a.m. the following day.

We offer special rates for conference participants and exhibitors. Please contact the underground car park control centre with your proof of eligibility.

Unfortunately, overnight stays in motorhomes are not permitted on the fairground.
